Marine Air Ground Task Force Training Command,
Marine Corps Air Ground Combat Center

WATER CONSERVATION TASK FORCE CHARTER

Introduction

Executive Order 13693 requires Federal agencies to lead by example in advancing the nation's energy security and environmental performance. The Executive Order contains specific requirements for reductions of Potable and Non-Potable water. Federal installations are required to reduce potable water consumption intensity by 36 percent by fiscal year 2025 based on the fiscal year 2007 water consumption baseline.

The State of California is facing one of the most severe droughts on record. Governor Brown declared a drought State of Emergency and directed officials to take all necessary actions to prepare for water shortages. As a result, the State Water Resources Control Board adopted an emergency regulation requiring an immediate 25 percent reduction in overall potable urban water use statewide in accordance with Governor Brown's April 1, 2015 Executive Order B-29-15.

Mission and Vision

Mission: The Marine Air Ground Task Force Training Command (MAGTFTC), Marine Corps Air Ground Combat Center (MCAGCC) Water Conservation Task Force (WCTF) will provide a forum to develop, implement, promote, and enforce water conservation policies aboard the installation in order to meet, and where possible, exceed federal conservation requirements. The WCTF will demonstrate our commitment to being recognized as the Department of Defense model for installation resource management.

Vision: The WCTF will synergize water conservation efforts of Combat Center tenant units, organizations, and personnel. The WCTF will provide a forum for education, discussion, goal development, and benchmarking progress. The WCTF will accomplish this by:

- Promoting installation-wide water conservation
- Reviewing and evaluating conservation policies and technologies
- Developing an installation-wide water conservation policy
- Monitoring and enforcing compliance with water conservation policy
- Meeting on a scheduled basis (at least quarterly) to discuss water conservation issues
- Tracking and documenting water conservation achievements
- Acting as the single point of contact for water conservation issues

WATER CONSERVATION TASK FORCE CHARTER

Membership

The Water Conservation Task Force is comprised of core membership from the following MAGTFTC, MCAGCC Divisions and Directorates:
Natural Resources and Environmental Affairs – Chair
Public Works Division – Co-Chair
Lincoln Military Housing

Marine Corps Community Services
Family Housing

Adjunct membership is critical to the success of the WCTF and will be comprised of additional MAGTFTC Directorates and all Tenant Units. WCTF will conduct quarterly meetings with members; every other quarter adjunct members are asked to participate in WCTF meetings.

Working Group

WCTF may be supported by various working groups aboard the installation to include the Green Council, Environmental Impact Review Board, Utilities Conservation and Appraisal Board, or other such working groups with information germane to the mission.
