

Marine Air Ground Task Force
Training Command,
Marine Corps Air Ground Combat Center
(MAGTFTC/MCAGCC)
GREEN COUNCIL Charter

Date Initiated:
Revision Date:

Introduction

Executive Order (EO) 13423 of January 24, 2007, *Strengthening Federal Environmental, Energy, and Transportation Management*, requires Federal agencies to lead by example in advancing the nation's energy security and environmental performance.

The Executive Order consolidates and strengthens five executive orders and two memorandums of understanding and establishes new updated goals, practices, and reporting requirements for environmental, energy, and transportation performance and accountability.

Vision and Mission Statement

Vision: The Marine Air Ground Task Force Training Command (MAGTFTC), Marine Corps Air Ground Combat Center (MCAGCC) will meet and where possible, exceed the requirements of Executive Order 13423. Units and organizations will actively participate in raising environmental awareness by incorporating, adopting, and promoting progressive environmental standards and practices that demonstrate our commitment to leadership in sustainable energy and environmental excellence. The MAGTFTC/MCAGCC Green Council will provide Executive Level leadership and guidance to Combat Center units and organizations in achieving these federally mandated requirements.

Mission: The MAGTFTC/MCAGCC Green Council will provide a forum for education, professional discussion, developing goals and benchmarking progress. The Green Council shall review and evaluate plans, monitor implementation and compliance, facilitate the exchange of information on successful sustainability programs and practices, lessons learned, and record progress in the following areas:

- Increases in the purchase and fleet operation of alternative fuel, hybrid, plug-in hybrid, and electric vehicles;
- Reductions in the use of petroleum consumption as a result of increased use of fleet vehicles that utilize alternative forms of energy;
- Increases in alternative fuel consumption as a result of increased use of fleet vehicles that utilize alternative forms of energy;
- Reductions in energy intensity through the use of energy efficient equipment, lighting, and implementation of energy conservation programs;
- Reductions in greenhouse gas emissions through the use of alternative fuel vehicles and energy efficiency/conservation programs;
- Increases in the utilization of fuel and energy/power from renewable resources;
- Increases in building performance through the construction of new facilities and the renovation of existing facilities in accordance with adopted sustainability strategies;
- Increases in water conservation through the installation of water efficient landscaping, building fixtures, and the implementation of water conservation programs;

GREEN COUNCIL Charter

Date Initiated:
Revision Date:

- Increases in procurement of environmentally friendly products, goods, and services from sustainable sources;
- Reductions in the use of chemicals and toxic materials as a mechanism for pollution prevention;
- Increases in compliance with the electronics management requirements to purchase, operate, reuse, donate, sell, or recycle electronics products;
- Increases in compliance in the utilization of environmental management systems;
- Other plans, reports, and briefs as MCAGCC Command authority deems necessary to meet and exceed the requirements of EO 13423

Membership

The Green Council is comprised of core membership from the following MAGTFTC/MCAGCC Divisions and Directorates:

- Natural Resources and Environmental Affairs (NREA) Chair / Co-Chair
- Bachelor Billeting Division (BBD)
- Southwest Regional Fleet Transport (SWRFT)
- Center Logistics Division (CLD)
- Public Works Division (PWD)
- Resident Officer in Charge of Construction (ROICC)
- Family Housing (HSG)
- Marine Corps Community Services (MCCS)
- Exercise Support Division (ESD)

Adjunct membership is critical to the success of the Council and will be comprised of additional MAGTFTC Directorates and Tenant Units. These members will participate in Quarterly Green Council forums and other ad hoc meetings as required.

Working Groups

The Green Council may be supported by other working groups aboard the installation to include the Environmental Compliance Review Board (ECRB), Environmental Impact Review Board (EIRB), the Utilities Cost Analysis Board (UCAB), or other such Working Groups with information germane to the mission.

C. M. GURGANUS,
Commanding General
